Donation: €		

CONDITIONS OF HEALTH AND REQUIREMENTS

Vaccination:	
Medication:	
Observations:	

Please complete this form by typing into the Word document or print and complete by hand.

ADOPTION TERMS AND CONDITIONS

No.1. Take care of the animal, be humane with respect and affection and treat him/her as a family member.

No.2. Meet all needs of space, food, water, play, exercise and ensure maximum sanitary conditions.

No.3. Provide healthcare through a veterinarian, including vaccination, deworming and other conditions warranting professional care.

No.4. Never abandon. If for any reason you are forced to not continue with the pet, you will undertake to find a new foster home that meets the same requirements and inform Paradise Rescue Kennels.

No.5. Provide us with occasional contact or photographic information to enable us to check the state of the dog, it's condition and it's environment.

No. 6 In the case of the dog not being sterilised upon delivery, the adopter must make a firm commitment to sterilisation. This must be carried out by a Veterinarian, who must comply when the dog reaches sexual maturity, in which case the costs will be the responsibility of the adopter who will give us a report stating that the sterilisation has been carried out professionally.

No. 7 The dog must be microchipped and given the Rabies vaccine, required legally in Spain and for travel out of Spain.

No. 8 Under no circumstances will the dog be used for breeding, hunting or baiting.

No.9. In case of breach of these clauses it is then deemed a breach of this contract.
